

Discover Discovery Centre on the Gorge

University of Victoria third year biology coop student volunteer holds a starfish and a decorator crab Sunday at the Gorge Waterway Discovery Centre. The learning centre, located in the former concession stand at Gorge Park has a Seaquaria where visitors can interact with and learn about marine creatures and plants found in the Gorge Waterway and surrounding shorelines. The centre also houses a watershed model where students can learn about urban issues on a 3D model. The centre is open Sundays 11 a.m. - 4 p.m. with admission by donation.
